**What is a Plinth?** Our unique Plinth System, consisting of a galvanised steel plinth and a quality damp proof course, will protect the bottom of your new building. We advise against brick plinths as these become damp, move and crumble especially at the doorways. It is important to ensure the concrete is the correct size, therefore a base plan will be sent to you upon confirmation of order.

**Delivery and Construction** We are pleased to offer Free Delivery and Construction within a 50mile radius of our workshop in Netherstreet, Chippenham, Wiltshire. Additional mileage is chargeable. All Construction is carried out by our fully trained staff rather than subcontractors. All Sections bolted together for added strength.

**Tack Room Security Pack** Unfortunately in this day and age, everyone has concerns about security. We offer our hugely popular Security pack, which features a five lever mortice lock, security bolted hinges, internally enclosed trusses and a fully framed ledge and braced door backed with galvanised steel (not required for Elite Range) and mounted in its own frame. Intro and Ideal Range £495 **Included with the Elite Range.**

**Translucent Roof Sheet** Add additional light with our sun reflective translucent roof sheets that will assist with clipping and other intricate jobs. Ideal Range £60 **Elite Range Included.**

**Stable Anti Cribbing Pack** Full height kickboards and top door lined. Top door anti bite strips which include, steel lining to door stop, top door opening and leading edge of the top door. Bottom door anti bite strip extending 450mm to the front. Intro and Ideal Range £375 **Included with the Elite Range.**

**Clock Tower** All our towers feature fluted pillars and louvred sides. Dials can be fitted on as many sides as required. The roof and finial is moulded from a lead original in GRP composite using metal powder to simulate lead whilst reducing weight and cost. Roman or Skeleton dial designs (with optional illumination) can be specified, and the tower can also include digital bell chimes or real bronze bells. £2500 each.

All Construction is carried out by our fully trained staff rather than subcontractors. All Sections bolted together for added strength.

**Ultimate Kickboards** Our Ultimate kickboards consists of the same 33mm kickboards inserts and galvanised steel frames as used for the internal steel partitions. The steel frames are fitted to the outer timber walls of your building along with the kickboard inserts. We also fit hardwood ply to the eaves' height as standard, as shown below. This makes our Elite Range American Barns one of the strongest and most aesthetically pleasing timber American Barns on the market today.

**What is a Plinth?** Our unique Plinth System, consisting of a galvanised steel plinth and a quality damp proof course, will protect the bottom of your new building. We advise against brick plinths as these become damp, move and crumble especially at the doorways. It is important to ensure the concrete is the correct size, therefore a base plan will be sent to you upon confirmation of order.

**Delivery and Construction** We are pleased to offer Free Delivery and Construction within a 50mile radius of our workshop in Netherstreet, Chippenham, Wiltshire. Additional mileage is chargeable. All Construction is carried out by our fully trained staff rather than subcontractors. All Sections bolted together for added strength.

**Oak Facade** Create an English Heritage appearance with our optional feature oak façade. Fascia's, posts and curved braces shaped from English oak.

**SHINGLE ROOFING** Add the ultimate finishing touch to your building. A felt or cedar shingle roof with a choice of designs and colours. Along with the shingles we will fit two timber louvres to each gable for additional ventilation.

## Insulation

At Jon William Stables we are able to insulate your ceiling, walls and floor but due to building regulations when insulating a building over 30m2 you must create an external cavity to allow any moisture to escape. For this reason we price each job individually as additional windows, doors etc will impact on the price. Please contact us on 01380850965 to discuss your requirements.

All prices are plus VAT at the current rate
